

Everything you need from tents to teaspoons

Frozen Drink Machine

We are pleased to provide to you quality equipment.

- Do not operate machine using an extension cord.
- Must be plugged into a dedicated circuit.
- Be sure bowls are seating properly as they may have become dislodged during delivery. Do not remove bowls to clean. Pour in warm water then empty.
- Do not overfill the tank as slush occupies more space than liquid.
- If using concentrate use 4 parts water to 1 part concentrate.
- If using coffee, lemon juice, orange juice, etc it is required that 5-7 oz of sugar be added per gallon.
- Please allow at least 2 hours to freeze.
- Add more slush mix as slush goes down, not when empty.
- Placing alcohol into tank will cause mix not to freeze.
- Locate machine out of direct sunlight and outdoors only when temperature is less than 75 degrees.

Additional Information:

Holds 230oz – Approx. 50 drinks (2 gal water + ½ gal drink mix)

Add 64oz of liquor per batch

You will be charged a replacement fee for items returned dirty, broken, damaged or lost.
